The change was not approved.

5. New Business

From Dr. Wittman: On behalf of the faculty of the College I move the approval of candidates for the award of respective degree at Commencement in May, 1982, as indicated in the listing provided the Senate pending the respective departments' certification that requirements for the major have been satisfied and pending the verification that all other specific degree requirements have been satisfactorily completed.

The motion was seconded by J. Johnson and carried.

S. Keiser moved to approve the following resolution: Whereas the fulfillment of the responsibilities of the Faculty Senate entails considerable accurate and speedy typing of Senate materials and the assembly and distribution of these materials; Be it therefore resolved that the Faculty Senate appreciates and thanks Diana Ebeling and Mary Fox for their efforts in regard to these functions.

Seconded by R. Voytas, the motion passed.

The Psychology Department requested the inclusion in the minutes of the following statement:

Departmental Statement

"It would appear that the unusual policy statement inserted into the March Senate minutes by the Business Administration/Economics Department and apparently supported by the administration could have far reaching effects. The departure from previous college policy and tradition alarms us.

We, in the Psychology Department, support the College's previous policy and tradition which consistently endorsed the concepts of cooperation, collaboration, and consultation among departments that have overlapping interests. We support the concept of nonduplication of effort between departments, faculty members, and committees. We feel this policy provides an important and adequate context for each department to grow as it sees fit without sacrificing the best interests of the college as a whole.

So that lack of a comment by the Senate on the policy statement should not be construed as acceptance or endorsement, we, the members of the Department of Psychology, would like the Senate to voice its position regarding this matter. Without such a policy statement from the Senate, we feel that the College is being placed on a course of adversarial and independent (isolational) relationships among departments which can only hurt the college in the long run."

P. Kendall moved that the Faculty Senate accept the statement presented without further comment. S. Mack seconded the motion. After discussion, E. Evans moved to amend the motion by deleting "without comment." Seconded by S. Keiser, the amendment failed to carry. The vote on the main motion was then defeated.

L. Friedman, seconded by R. Wittman, moved that the Faculty Senate acknowledge the receipt of the statement from the Psychology Department. The motion passed.

M. Burkett moved that the issue concerning the differences and/or resolution of the two statements submitted by the Departments of Business Administration/Economics and Psychology be referred to the Faculty Senate Committee on Academic Affairs. R. Grabowski seconded the motion which carried. E. Evans and R. Weiss abstained from voting.

E. Early, seconded by R. Grabowski, moved to approve the amendment as submitted by the Curriculum Committee, to the Faculty Senate statement concerning Category V of the General Education requirements. The added paragraph reads:

Procedure will be developed by Deans in coordination with the Vice President for Academic Affairs. In the final determination a School's position on Category V will be determined by the majority vote of programs within the respective Schools.

The motion passed.

A. McKinley moved the meeting adjourn. S. Tibbits seconded the motion, which passed. The meeting was adjourned at 5:00 p.m.

Respectfully submitted,

  
E. Earnest Foust  
Chairperson
