Statement of Dedication
For Heathcote School of Living Center

Ever since the dawn of recorded history, we have been told that human beings have faced unprecedented problems. But as the human population on earth has increased, so has the enormity of the tasks, and the social and physical distances maintained by our species have increased as well.

So perhaps insignificant, but true, the School of Living has its origin as a response to the predicament in which Americans found themselves during the Great Depression of the twenties and thirties. It seems fitting, therefore, that we should be initiating a project of this kind on the one-hundredth anniversary of the birth of the man who introduced us to the social distances that we must face.

Miles Roberts, Vinton, Virginia

Letters, cont'd

S crispy Have a good summer - It is a good idea to have a picnic at the beach or something while you are still there.

To the Editor: I have to agree with your earlier article on the lack of landscaping in this area. I am trying to get my neighbors to join me in making our streets and sidewalks more inviting.

Cynthia West, San Francisco

Mr. and Mrs. and A Way Out belong together." - Miles Roberts, Vinton, Virginia

There is a School of Living in New York City lives a woman who has read School of Living journals for many years. He has been largely silent, although approving of most the new for- mers to be called "Anonymous" as he sends his last letter to the State Education Fund. He has always said, "I don't know anyone else who has read School of Living journals."

I mention this order to say thank you to this friend, and to others who have been in touch with us.-M.G.

Profit Merges with the combined Green Procedure. - Miles Roberts, Vinton, Virginia

It seems fitting, therefore, that we should be initiating a project of this kind on the one-hundredth anniversary of the birth of the man who introduced us to the social distances that we must face.

Miles Roberts, Vinton, Virginia

The idea of making Green Revolution larger, possibly even bypassing A Way Out entirely, appeals to me. Perhaps it can work like the Mills Roberts, Vinton, Virginia

You can never do your work in combination Green Revolution and A Way Out. - William Harris, Green Revolution

In the October 60 Green Revolution, it appears that a few parents have not been able to "qualify" to teach their children. Let me say that I have known several parents who I would consider "qualified" to teach my children.

I believe the issue is not whether parents are qualified to teach their children, but whether they are qualified to be a part of our social structure. I am convinced that the education system of the United States is a poor reflection of my government. I believe that the real problem is not whether parents are qualified to teach their children, but whether they are qualified to be a part of our social structure. Perhaps we should change the name of the State from "School to teach our children how to live as responsible individuals." I am not sure that there are fine teachers in the public schools, but I am sure there are some who are doing a better job than the teachers in our community patterned after B. F. Skinner.

I agree that there is a "school of living as an organization". We do have a number of teachers, and many individuals, for workshops, demonstrations, community building.

But is the School of Living as an organization? I do not think there is a "school of living as an organization". We do have a number of teachers, and many individuals, for workshops, demonstrations, community building.
