School of Living

Is for everyone who wants to live better. If you want better health, more independence, more community, creative work, improved family living, better child-parent relationships, let the School of Living be your guide.

If you want to get rid of war, improve economic and political conditions, improve education, decentralize cities, etc., etc., let School of Living know. School of Living examines the whole of life—every aspect.

You can take part—informally by contributing to and reading our quarterly journal, more formally by study of our Seventeen Universal Problems of Living.

Whatever your offering or need, we welcome you in searching and acting for a good life. Write us soon.

Loomis, School of Living, Vermont. It must be right that we join prevents falling over a cliff rather than building a guardrail where the road approaches the cliff. It makes me wonder what the right thing is. I'm doing my best to prepare for more effective opposition to war. I chose to present "market ing and protesting" of war is too short lived. It deals in superficialities. It feels good. It's fun. It's everyone, everyone. We think Go Ahead and Live! is a "soldier" order.

We have been known by others (Mr. Madsen provided a booth for School of Living books and papers). Michigan people started organic gardening a long time ago, and we were thrilled at their educational work, growth and influence. Some of their leaders are of course hoping for "more" along the lines of our Green Revolution. By people's standards, "more" is money and possessions of an "individualistic and coverage" of the federation. We enjoyed meeting other School of Living friends and members there, and the help of Carl and June Ogren. The wonderful lunch of organic foods from their Paw Paw.
